Transitioning Rams to their new home

Our shedded rams have spent the past five months in a housed environment. To ensure these rams make a positive transition to the paddock please be mindful of weather conditions and available fodder. Also to be noted, due to the drought conditions all our rams have been maintained on a quality grain/hay diet, something to be mindful of when taking them home.

If you need any advice regarding their feed requirements or shed mix to take home, please don't hesitate to ask us.
